

MANOEUVRABLE

for smooth movement in any direction on different terrain types

REMOTE CONTROL

Remote control distance - up to 400 m/1300 ft

CUSTOMIZABLE

changeable targets to accommodate different training scenarios

TRANGO SYSTEMS

info@trango-sys.com

Trango Systems specializes in force building and combat training infrastructure solutions. Its products are developed for use by military units and homeland security agencies. The goal is to prepare combatants to effectively and efficiently deal with present-day battlefield challenges, saving lives and avoiding collateral damage by simulating realistic operational settings and supporting training in a wide range of scenarios with emphasis placed on the urban environment.

LIAM | MOVING TARGET

- Easily manoeuvrable
- Stable, suitable for various terrain types
- Customizable target options using the same mobile base
- Supports both 2D and 3D target models
- Supports remote control
- Ricochet-free for enhanced safety
- Multiple speed modes available

All targets are made of **PANELO™** - a patented composite manufactured exclusively for Trango Systems.

Power System	
High-capacity battery	4000 mAh
Operational time	up to 12 hours
Battery armor	Yes
Mobility System	
Wheels	x4
Motors	x4
Ricochet Protectors	Yes
Max. speed	12km/h 7.5m/h
Communication System	
System type	2.4 GHz RF
Operation range	400m 1300ft

REMOTE CONTROL

Exceptional precision. Operational range up to 400 m (1300 f)

THE BATTERY

Housed in a protective armor for durability and damage prevention

MODULAR APPROACH

Integrate various types of targets

SPEED

3 speed modes with the maximum speed of 12 km/h (7.5 m/h)

SMOOTH MOVEMENT

Advanced motor control for smooth responsive movement on different types of terrain, including stony uneven ground

STRONG LONG-LASTING TARGETS

Targets made of PANELO: sustain >12,000 hits with 5.56mm, >3,000 - with 9 mm
